

Midwest Wildflower Seed Mix

*This mixture is full of annuals and
perennials and ideal for any
landscape through the Midwest*

Planting Rate: 5-10 lbs per acre

Planting Rate for ½ acre or less: 4oz./1,000 sq. ft.

Planting Recommendations:

In mild climates, plant during the cooler months of the year;
fall through spring, for best results. Fall plantings done prior to periods of
rainfall will insure an early display of flowers the following spring.

This Seed Mixture has the following flowers

Purple Coneflower, Scarlet Flax, Annual Candytuft,
Dwarf Blue Coreopsis, Annual Baby's Breath, Indian Blanket,
Shasta Daisy, Purple Prairie Clover, Corn Poppy, Clasping Coneflower,
Black eyed Susan, Prairie Coneflower, Plains Coreopsis
