

GFSC SUMMER EDITION

JULY 2024 | In July, we spill the beans on exciting news, read the details!

COVER CROPS!!

Cover crops have provided economic and environmental benefits to farming operations for decades. GFSC is here to help you decide what cover crops would be beneficial for your fields, your management and your goals.

PARTNERING COMPANY

Our top priority is to provide our customers with the best products and services, because this is what we expect from the companies that we work with on our own farming operation. GFSC also wants to be able to provide high demand products for our customers. We are excited to announce that we have added a company to our line up! **Cisco Seed Company**. They are a family-owned Indiana business established in 1965. The possibilities are endless and we look forward to sharing soon!
