

GFSC FALL EDITION

OCTOBER 2024 | Field ready, or sitting on the sidelines waiting....

2025... Just Like that...

Some are not even in the fields yet and we are already planning for 2025 production and navigating through the best management program for our crop production.

We are here to help with your seed platform and available programs. We have well over a decade of experience working with some great companies.

DORMANT seeding

COULD BE WHAT YOUR PROJECT NEEDS

Spring can bring challenges when planting is desired. Thankfully CRP seedings can take place several times throughout the year. GFSC provides several in-stock mixes. Custom orders are welcome and come with a quick turnaround time. Get in touch with us today for prices. Feeling overwhelmed? We will work with your local office on your mix! We will even email them your invoice and tags!
